

## Project Profile

<b>Project Name:</b>	Scientific Update for the Boreal Caribou in BC (2016 Update)
<b>Project Number:</b>	BCIP-2016-21
<b>Proponent:</b>	Caribou Ecological Consulting / Diversified Environmental Services
<b>Funding Envelope:</b>	Boreal Caribou
<b>Timeframe:</b>	March 1, 2016 to January 31, 2017

### Project objectives

The objective of the project are to:

- Collect and compile new available information, and revise sections of the 2010 Scientific Update for Boreal Caribou.

### Project description

Update the Scientific Update for the Boreal Caribou in British Columbia that was prepared in 2010 by the BC Ministry of Environment.

### Project approach

The project will be carried out using the following approach:

- Determine new information available for Boreal Caribou in British Columbia since the 2010 Scientific Update was completed. The document will be updated to reflect the studies and inventories completed since originally drafted in 2010.

### Project deliverables

The deliverables from this project include the following:

1. Updated Scientific Update for Boreal Caribou in BC (2017).
